Dear Haoqing Wang,

Congratulations! The following paper was selected as a highlight at CVPR 2023:

278: Masked Image Modeling with Local Multi-Scale Reconstruction

Highlights constitute roughly 10% of the *accepted* papers at CVPR, as selected by the program committee. Specifically, we have received 9155 submissions, accepted 2360 papers, and selected 235 highlights (10% of accepted papers, 2.5% of submissions).

Highlights will be marked for special attention in the online conference platform and the physical poster session.

We look forward to seeing your exciting work in Vancouver!

Best regards,

Andreas Geiger, Judy Hoffman, Lana Lazebnik, Ross Girshick and Vladlen Koltun
